

Biology – Plant Research Sheet

Name: _____ Date: _____

Plant Studied: _____

<p>Scientific Name Genus and species</p> <p>*Bonus: Write out complete taxonomy (Domain, Kingdom, Phylum, Class, Order, Family, Genus, and Species)</p>	
<p>Habitat & Geographic Distribution Biomes, climate, soil type, elevation, and geographic range (native vs. introduced):</p>	
<p>Role in the Ecosystem Primary producer role, interactions with pollinators, herbivores, decomposers, symbiotic relationships, and nutrient cycling:</p>	
<p>Uses Human uses (medicinal, nutritional, agricultural, industrial, cultural) and known bioactive compounds if applicable:</p>	
<p>Interesting & Advanced Facts Unique adaptations, defense mechanisms, or current research findings:</p>	

Find or draw a picture of this plant to share with the class.
